## Magasin Pittoresque (32 )

By Myung W Lee Geological Survey U.S.

RareBooksClub. Paperback. Book Condition: New. Paperback. 40 pages. OCLC Number: 51875181 Excerpt: . . . 4 Velocity Ratio and its Application to Predicting Velocities the trend of dry rock as BGT predicts. For unconsolidated M odeling the Velocity Ratio sediments with porosities greater than 40 percent, BGTL with n 1 agrees well with the measured values. For porosities In order to model the velocity ratio with respect to the less than 40 percent, BGTL with n and n 1 performs differential pressure and porosity, Biot coef cients shown in equally well. The scattering of velocity ratios shown in gure 2 Appendix A are used with the parameters shown in table is partly due to the clay content of the samples. Figure 3 shows 1. Appendix A shows two examples in which the Biot coef-the measured velocity ratios using Hans data ( Han and others, cient depends on differential pressure and presents general 1986 ) at the differential pressure of 30 MPa with respect to Biot coef cients applicable to consolidated and unconsolidated porosity and clay volume content. Predicted velocity ratios sediments. The modeled velocity ratios are shown in gure 1 from BGT and BGTL are also shown in gure 3....

### Reviews

*Definitely one of the best book We have at any time go through. It is actually filled with wisdom and knowledge I am quickly could get a delight of studying a published book.*

-- **Dr. Kim Bergnaum**

*It is really an awesome pdf that I actually have actually study. It really is basic but excitement from the 50 % of the publication. I am delighted to inform you that here is the greatest book i have read through within my individual existence and can be he finest publication for actually.*

-- **Mrs. Yasmine Crona**
