Stochastic Optimization

Filesize: 1.45 MB

Reviews

Completely among the finest publication I have possibly read. It really is basic but excitement in the fifty percent from the pdf. Your lifestyle span is going to be convert when you total looking at this publication.
(Dr. Curt Harber)

STOCHASTIC OPTIMIZATION

Springer Jun 1986, 1986. Taschenbuch. Book Condition: Neu. 244x170x41 mm. This item is printed on demand - Print on Demand Neuware - InhaltsangabeA martingale approach to partially observable controlled stochastic systems.- On the limiting distribution of extremum points for certain stochastic optimization models.- The structure of persistently nearly-optimal strategies in stochastic dynamic programming problems.- On the derivation of a filtering equation for a non-observable semimartingale.- On the representation of functionals of a wiener sheet by stochastic integrals.- The maximum principle for optimal control of diffusions with partial information.- Explicit solution of a consumption/investment problem.- On the asymptotic behavior of some optimal estimates of parameters of nonlinear regression functions.- On the -optimal control of a stochastic integral equation with an unknown parameter.- Some properties of value functions for controlled diffusion processes.- Stochastic control with state constraints and non-linear elliptic equations with infinite boundary conditions.- On the weak convergence of controlled semi-martingales.- Estimation of parameters and control of systems with unknown parameters.- On recursive approximations with error bounds in nonlinear filtering.- On approximations to discrete-time stochastic control problems.- On lexicographical optimality criteria in controlled markov chains.- Canonical correlations, hankel operatiors and markovian representations of multivariate stationary Gaussian processes.- The maximum principle in stochastic problems with non-fixed random control time.- Optimal control of stochastic integral equations.- Some direct methods for computing optimal estimators for forecasting and filtering problems involving stochastic processes.- On functional equations of discrete dynamic programming.- Risk-sensitive and Hamiltonian formulations in optimal control.- Martingales in survival analysis.- Markov decision processes with both continuous and impulsive control.- Stochastic programming methods: Convergence and non-asymptotic estimation of the convergence rate.- Solution of a stochastic programming problem concerning the distribution of water resources.- Limit theorems for processes generated by stochastic optimization algorithms.- On the structure of optimality criteria in stochastic optimization models.- Strong laws for...
