## An Intelligent Person's Guide to Atheism

By Daniel Harbour

Gerald Duckworth & Co Ltd. Hardback. Book Condition: new. BRAND NEW, An Intelligent Person's Guide to Atheism, Daniel Harbour, The debate about atheism has, without a doubt, stalled in recent years. In this book, Daniel Harbour returns to its core issues - the existence of God, the value of faith, the role of religion in society - and casts them in a new light. The real question, he argues, is how we should consider our urge to understand the world. Only then can we ask whether atheism or theism forms part of a coherent worldview. This new debate between atheism and theism forces us into an investigation of philosophy, science, history, ethics, and aesthetics, and a desire for intellectual integrity and commitment to truth. It is very far removed from the usual listing of the errors of theism. Nor can atheism be equated with denialism. It holds real and practical implications for the place of religion and the obligations of atheists in our society.
