Every chapter in SRRSLEH matches the corresponding chapter of DMwD. Chapters in SRRSLEH contain the following: * A list of the notation introduced in the corresponding chapter * A list of definitions that students need to know from the corresponding chapter * Theorems/facts of note appearing in the corresponding chapter * A list of proof techniques introduced, with templates and/or examples given for each one * A selection of examples from DMwD, written out formally and briefly rather than colloquially as in DMwD A quick refresher for any discrete math student, this handbook enables students to find information easily and reminds them of the terms and results they should know during their course.
