

## The Association Graph and the Multigraph for Loglinear Models

By Harry J. Khamis

SAGE Publications Inc. Paperback. Book Condition: new. BRAND NEW, The Association Graph and the Multigraph for Loglinear Models, Harry J. Khamis, Though the graphical model was introduced in 1980, most of the research and application of the methodology in this field has been done by Europeans. The U.S. has lagged somewhat behind; only in recent years has the graphical model appeared in some of the American textbooks on categorical data, and even then the coverage is limited. The purpose of this work is to provide an initial source of reading for someone interested in the topic. This publication distinguishes itself from any other book by including the multigraph representation of LLMs, a natural and very effective extension of the graphical model approach. The book's coverage would extend from the LLM, already covered by Knoke and Burke's SAGE publication, "Log-Linear Models," through the development and application of the multigraph representation in one coherent, comprehensive treatment.

### Reviews

*It is just one of the most popular ebook. It is written in simple words and not confusing. I am just happy to tell you that this is actually the finest ebook I have got read inside my very own existence and may be the greatest ebook for at any time.*

-- Vicky Adams

*Great electronic book and valuable one. It really is simplistic but surprises within the fifty percent from the book. It has been printed in an extremely simple way in fact it is merely right after I finished reading this publication by which in fact modified me, change the way I really believe.*

-- Dr. Bethany Lindgren
